World Real Yoga Alliance” – Europe**

Eligibility

Education – Graduation from any stream with a minimum certificate course in Yoga from preferably an IYA certified Institution

Age – No limit

Medical Fitness: Candidates should be medically fit and sound as certified by competent authority

Section – 1 Goals of Course

1. Recognise the common health problems consulting a physician.
2. Become aware of the research advances and developments in the field of Yoga
3. Acquire a spirit of scientific inquiry and oriented to the principles of research methodology.
4. Become proficient by developing scientific temper and experience
5. Plan and design a module of yoga for a particular problem
6. Demonstrate empathy and humane approach towards patients and their families and exhibit interpersonal behaviour in accordance with the scientific norms and expectations.
7. Improve skills as a self-directed learner; recognise continuing educational needs, select and use appropriate learning resources.
8. Demonstrate competence in basic concepts of research methodology and be able to critically analyse relevant published research literature.
9. Work towards realization of health for all, as a national goal through Yoga.
10. To understand the medical ethics and never prescribe a module without consulting a doctor.
11. To become well versed in research and improve the skills of carrying research with medical researchers in the field of yoga
12. To demonstrate the usefulness of yoga through contiguous effort and encourage a patient to practice yogic techniques without fail.
13. To convince a patient to understand the root cause of his / her problem as yoga believes in the concept ‘identification of a disease is 50% cure’.

INSTITUTIONAL GOALS: After the completion of course program in yoga therapy, the students must:

1. Be able to design a Yoga Module based on the severity of the condition with consultation with medical doctors.
2. Be proficient in the Yoga Therapy Techniques he/ she prescribes for health issues.
3. Develop a humane attitude towards the patients and never give burden to a patient in terms of financial affordability.

4. Enjoy an urge for self-improvement, directed towards advanced expertise or research in the field of yoga
5. Be able to give spiritual counselling and explain the manifestation of a disease in the context of yogic scriptures and spiritual lures.
6. Explore and understand the cause of his / her problem for which the patient has been suffering
7. Be able to work successfully in a variety of health care settings
8. Develop integrity, responsibility, reliability, dependability and compassion which are characteristics required for successful professional life.
9. Develop leadership and communication skills to work as leading therapist in health care teams.

OBJECTIVES OF THE PROGRAM: The post-graduation program in Yoga Therapy has been designed with the following objectives

1. To train students in Yoga Therapy so as to enable the students to become well versed in Yoga Therapy.
2. To integrate Yoga Therapy with other systems of medicine to speed up the process of recovery
3. To explore the possibilities of promoting Yoga Therapy integrating medical practice at conventional medical facilities attached to the institute.
4. To produce Yoga Therapists with in-depth understanding of basic sciences and mechanism of action of every technique prescribed for a disease.
5. To bring all round personality development of the students at all levels of their personality.
6. To produce the therapists of high calibre who could work efficiently as a yoga therapist in the hospitals, spa, wellness centre, start their yoga centre and join the yoga department of the universities as an assistant professor.
